

# Pleated cardboard filter

250g/m<sup>2</sup>

## Application

The V shape design is made to capture any wet solids or liquid particles in an air stream created during painting processes. Perfect pleat distance holders let to capture solid particles, baked and air dried, glues, oils, stains, lacquers, fiberglass, epoxies, asphalts, clear coats, tar, teflon, etc.

FLAMMABILITY  
classification

ECO Green  
recyclable

## Specifications

Dimension	0.75; 0.9; 1.0 m (10 m <sup>2</sup> per pack)
Colour	White/Brown
Structure	Pleated dual layer
Efficiency	91-98 %
Weight	260/250 g/m <sup>2</sup>
Initial pressure drop	30 Pa
Final pressure drop	130 Pa
Dust holding capacity	18 Kg/m <sup>2</sup>
Thickness	65 mm
Air permeability	1200-3600 m <sup>3</sup> /h
Nominal air flow	0.3-1 m/s
Safety regulation	ATEX 91/9/CE
